

COLLECTION 2026–2027

LS2 was founded in 2007 with a clear and ambitious mission: to become the global leader in the motorcycle helmet industry. Since then, it has grown rapidly, combining innovation, safety, and design to meet the demands of riders worldwide.

Beyond helmets, LS2 now offers a complete range of motorcycle gear—from jackets and pants to gloves, boots, goggles, and accessories—catering to every need of two-wheel enthusiasts.

With distribution in over 130 countries and market leadership in many of them, LS2 stands as the fastest-growing brand in its field, a testament to the trust and loyalty of motorcyclists around the world.

BRAND PILLARS

1 SAFETY

Protecting your dreams! Safety is our number one priority; we are committed to offer maximum protection to all our riders.

2 QUALITY

We only use high quality materials! Our products meet or exceed the most demanding test standards required internationally.

3 INNOVATION

LS2 constantly invest in R&D and we are continuously searching for modern technology to incorporate into all our products.

4 DESIGN

Innovative design that blends creativity, function, and safety—enhancing the user experience without compromising on quality.

5 PASSION FOR RACING

We love motorsport! LS2 is a proud sponsor of several riders in different categories (MotoGP, Moto2, Moto3, SuperBike, Dakar and many more).

MATERIALS

CARBON

Carbon Fibre is a material used extensively in the aeronautical industry and of course in the highly competitive world of Formula 1 and MotoGP. It has incredible strength but it's extremely light.
LS2 uses multiple layers of our exclusive wide-weave carbon fibre for a very light, but strong shell that offers state-of-the-art energy management for the utmost on safety.

6K CARBON FIBER

With a minimum 6000 carbon fiber weave, LS2 sets the pace for high performance Carbon Fiber motorcycle helmets beyond the capabilities of any other helmet manufacturer in the market.

9K CARBON FIBER

Champions need championship-level equipment. Our top racing helmets, the FIM 02 approved THUNDER GP PRO 02 & X-FORCE PRO are ultra-light with enhanced shock absorption attributed to the high-performance 9000 Carbon Fiber weave.

HPFC

(HIGH PERFORMANCE FIBREGLASS COMPOSITE)

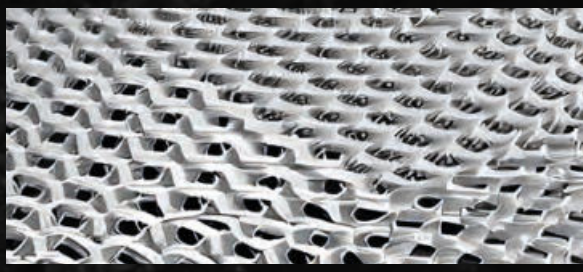

High Performance Fibreglass Composite is a carefully layered, proprietary blend of a unique weave of fibres pre-filled with resin into a strong, ultra lightweight, but rigid shell that bears an impact while better dispersing and managing energy for a safer ride.

KPA

(KINETIC POLYMER ALLOY)

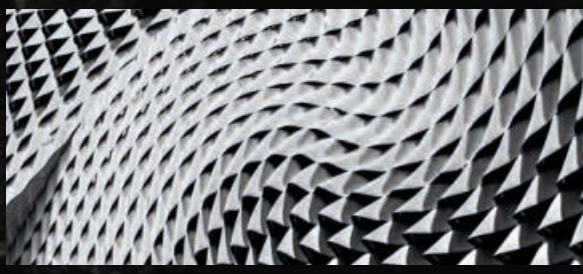

A proprietary material specifically formulated by LS2, KPA utilizes nanoparticle technology to blend space age thermoplastics along with microscopic levels of aramid fibres for a material that is strong, lightweight, and offers the latest in high performance energy management for a safer ride. This special formula meets both ECE 22.06 and DOT requirements.

HPTT

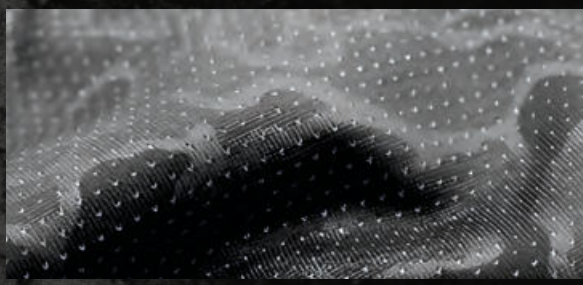

(HIGH PRESSURE THERMOPLASTIC TECHNOLOGY)

LS2 developed HPTT as the perfect blend of ABS and other thermoplastic polymers to offer the ultimate balance between safety, energy managing performance, weight, and value.

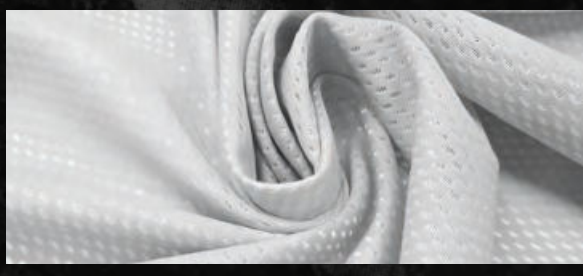

X-static®

X-STATIC® fabric is bonded with 99.9% pure silver to the surface of Nylon 6.6, meaning that no nanotechnology chemicals are used to create permanent antibacterial, odor control, thermal regulation, and anti-static electricity functions. These functions will not fade after many washes and will last for the product's entire lifespan. X-STATIC® has been proven to effectively inhibit bacteria and mold, thus helping to reduce unpleasant odors.

COOLMAX®

Coolmax® fabric helps evaporate moisture and promotes breathability. It is made of a special fiber, composed of four to six channels that create a transport system capable of moving moisture from the skin to the outer layer of the fabric. This system dries moisture faster and more effectively, while simultaneously regulating body temperature through evaporative cooling.

LS2 IRID® DYNAMIC VISOR

CLEAR TO DARK IN LESS THAN 1 SECOND!

This dynamic visor automatically darkens in just 0.09 seconds without the need for batteries, thanks to a fully mechanical system.

Ultra-lightweight (only 20 g), anti-fog, waterproof, and offering perfect visibility with a visible light transmission (VLT) range of 60% to 20%, designed to perform in any weather condition.

QUICK REACTION
Transitions in 0.09 seconds

NO BATTERIES
Fully mechanical system

WATERPROOF
Ready for all weather

ANTI-FOG
Integrated system tested at 120 seconds

LIGHTWEIGHT
Only 20 g

PERFECT VISIBILITY
60% to 20% VLT (visible light transmission)

Clear visor
(Homologated)

Dark visor
(Track use only)

FEATURES

- Wide field of view for enhanced visibility.
- Lexan lens with anti-fog, scratch and impact resistance, plus UVA & UVB protection.
- Triple-layer hypoallergenic foam for superior comfort and sweat absorption.
- Durable 45 mm strap with non-slip silicone backing.
- Optimized ventilation for excellent airflow.
- 9-pin lens retention system for maximum stability.
- Over-the-glasses (OTG) compatible.
- Outrigger-mounted design for a perfect fit (CHARGER PRO and CHARGER PRO KID).

FIT

- TPU faceplate for extra comfort
- Ventilation holes around the frame offer excellent airflow.
- Extremely durable and elasticated 45 mm strap with non-slip silicone reinforcement

CERTIFIED

- B EN1938:2010

HELMETS SIZE GUIDE

To know what helmet size you are, you must measure the circumference of your head. For this you can help yourself, for example, with a measuring tape or a thread. Once that value is obtained, you will find your corresponding size in the following table.

ADULT SIZES	2XS	XS	S	M	L	XL	2XL	3XL	4XL
HEAD CIRCUMFERENCE (cm)	51–52	53–54	55–56	57–58	59–60	61–62	63–64	65–66	67–68

MATERIALS

WATERPROOF LS2 SHELTEX®

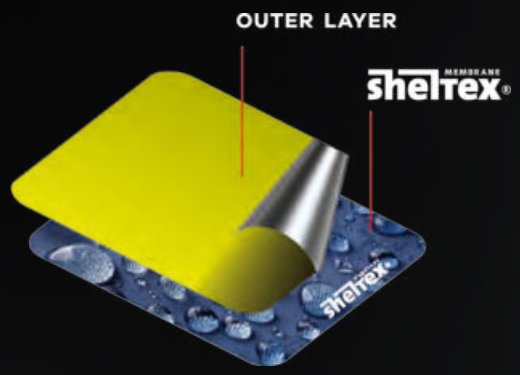

Innovation and protection, engineered by LS2

Developed and patented by LS2's R&D team, the Sheltex® membrane is an advanced solution offering top-tier protection from rain and wind without compromising comfort.
Combining high performance with innovative design, it's the go-to choice for reliable weather defense.

- **Waterproof:** Keeps you dry even in extreme wet conditions.
- **Windproof:** Blocks cold air completely, preventing wind chill.
- **Breathable:** Releases moisture and sweat to maintain comfort.
- **Lightweight & Flexible:** Ensures freedom of movement and all-day wearability.
- **Durable:** Built with high-quality materials for long-lasting use.
- **Versatile:** Suitable for jackets, gloves, boots, and more—ideal for motorcyclists and outdoor enthusiasts alike.

LS2 SHELTEX® MEMBRANES

Sheltex®

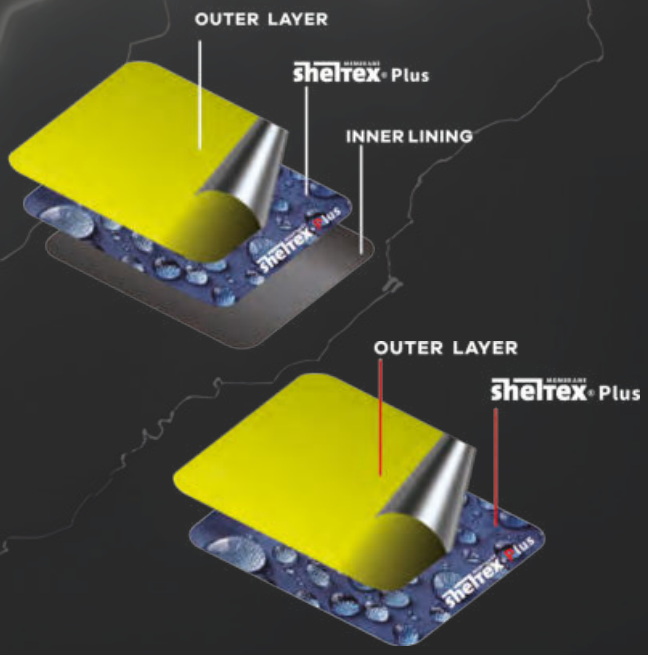

Lightweight, breathable and windproof protection against rain and wind, perfect for urban riders on short or daily commutes.

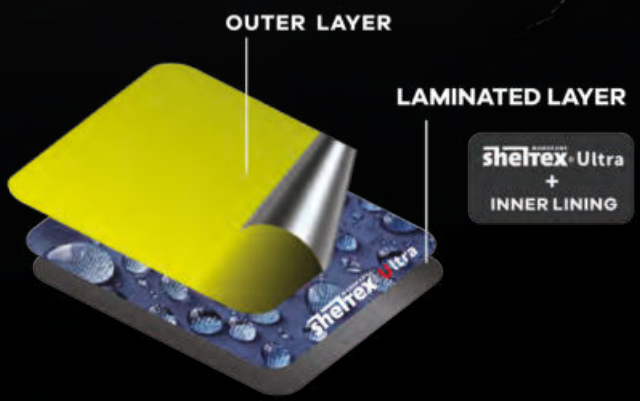

Waterproofness: 8000 mm H2O
Breathability: 8000 g/m2/24h

Sheltex® Plus

Exceptional protection from rain and wind, while maintaining comfort in use, ideal for medium distance trips and journeys where performance and comfort are paramount.

Waterproofness: 15000 mm H2O
Breathability: 12000 g/m2/24h

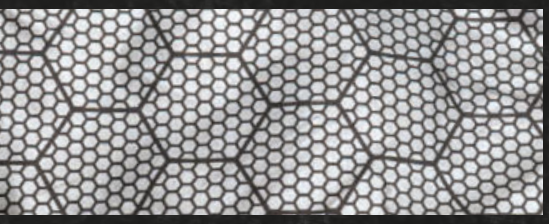

Sheltex® Ultra

High performance material that provides exceptional waterproofing, excellent breathability and superior wind protection. Designed for long distance riding and adverse weather conditions, it ensures long-lasting comfort and reliable protection.

Waterproofness: 20000 mm H2O
Breathability: 20000 g/m2/24h

MATERIALS

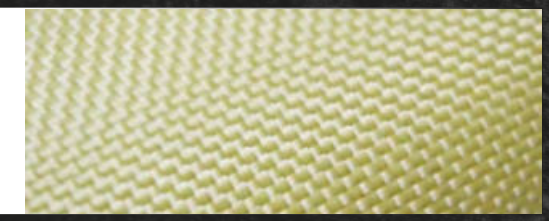

GRAPHENE FABRIC

Ultra-lightweight, highly durable fabric with excellent thermal conductivity. Regulates temperature, enhances breathability, and provides antibacterial protection for all-day comfort.

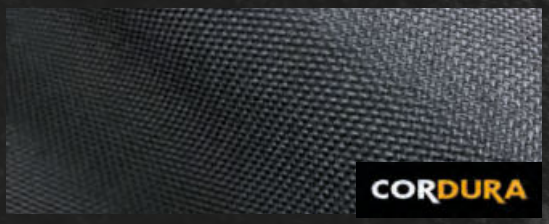

ALPINE FABRIC

Premium waterproof fabric designed for cold-weather performance. Originally developed for high-performance ski gloves. Delivers durability, flexibility, and reliable protection in extreme conditions.

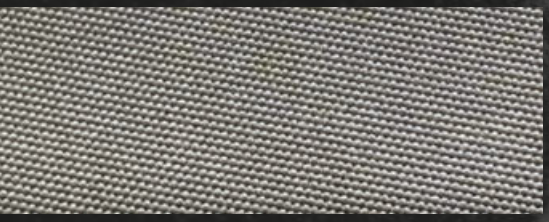

DUPONT™ ARAMID FIBER

High-strength aramid fiber offers exceptional abrasion, cut, and heat resistance while remaining lightweight and flexible. Up to five times stronger than steel, it reinforces LS2 riding jeans and pants for enhanced protection.

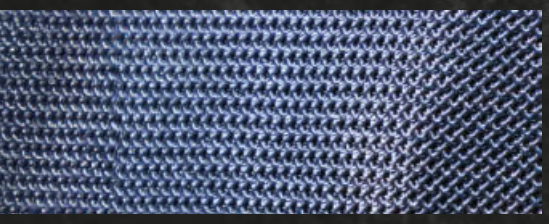

CORDURA®

Cordura® is a high-performance nylon fabric with exceptional abrasion resistance and durability. Up to twice as strong as standard nylon and ten times more durable than cotton, it delivers lightweight, long-lasting protection.

OXFORD FABRIC 600D

600D Oxford fabric offers excellent abrasion and tear resistance in a lightweight, comfortable construction. **OEKO-TEX**® Standard 100 certified and **EN17092** compliant, it delivers lasting performance.

HIGH-TENACITY PERFORMANCE MESH

Double-layer performance mesh engineered for maximum airflow with excellent abrasion and tear resistance. CE certified to EN 17092 Class AA.

SUPERFABRIC®

Advanced protective fabric featuring hard guard plates for exceptional cut, puncture, and abrasion resistance. Used in protective clothing, footwear, and riding gear.

SPANDEX

Spandex is a high-stretch fiber that provides a precise fit, superior comfort, and unrestricted freedom of movement. Its exceptional elasticity ensures lasting flexibility.

RIPSTOP

Ripstop is a reinforced grid-weave fabric that enhances tear and abrasion resistance while remaining lightweight and comfortable. Its woven reinforcement provides exceptional durability without compromising flexibility.

3 LAYER SOFTSHELL

3-layer Softshell is an elastic, water-resistant fabric that combines weather protection, flexibility, and comfort. Its super-elastic polyester construction ensures unrestricted movement and lasting durability.

OXFORD DOBBY

Advanced laminated fabric combining outstanding abrasion resistance, waterproof protection, and exceptional breathability for optimum riding performance.

RUCO®—THERM CMB

Advanced cooling finish integrated into the jacket lining, combining instant freshness with long-lasting, moisture-activated cooling to enhance comfort in warm riding conditions.

HOW TO MEASURE YOURSELF

A. Height

Stand against a wall and ask someone to measure from the floor to the top of your head, keeping the measurement vertical.

B. Outer arm

Measure from your shoulder (humerus) to your wrist.

C. Chest

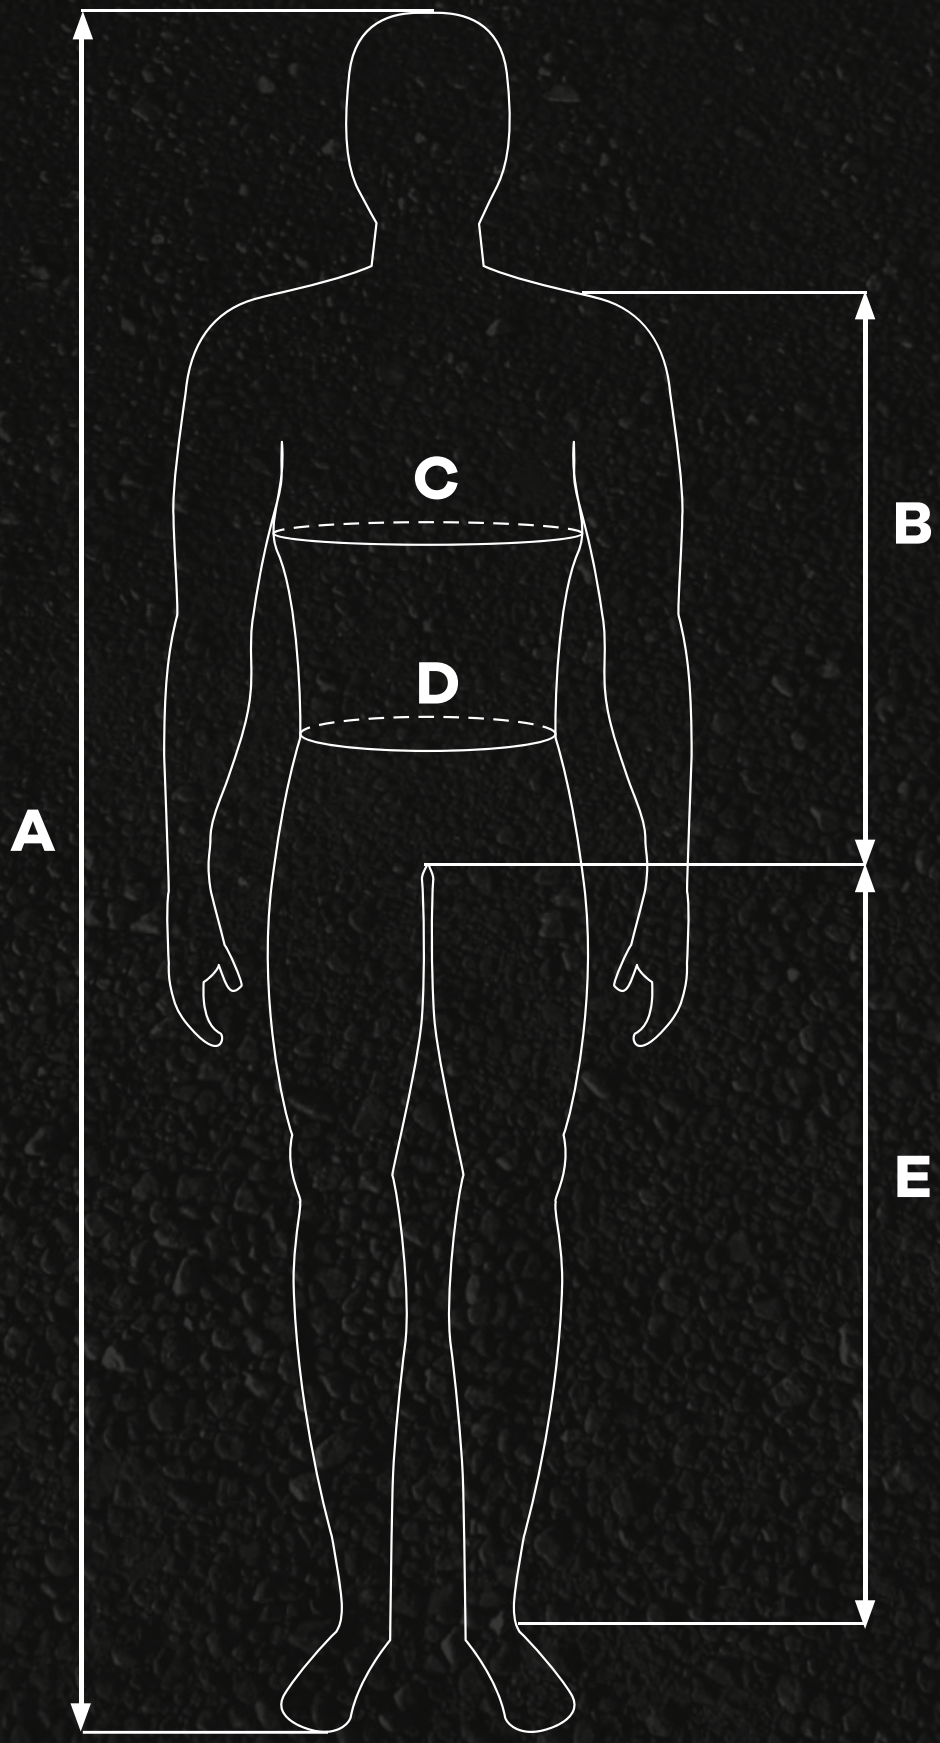

Measure around the fullest part of your chest, keeping the measuring tape horizontal.

D. Waist

Measure around your natural waistline, in line with your navel, keeping the tape horizontal.

E. Inner leg

Stand against a wall and ask someone to measure from your crotch to the bottom of your leg.
